## arkitekthjelpen [**studio**]

### WHAT

Studentrun course at NTNU where masterstudents work with real projects of common interests

### HELPS

Students, project owners/clients and NTNU

## arkitekthjelpen [**rådgivning**]

### HOW

The studio is run like an architect studio and work with real projects and real clients, with the purpose of getting the projects realized. The students will get experience from working with projects, dealing with clients, establish, administrate and run a new organisation.

Academic and professional support is given by trained architects and engineers, to secure high quality.

The students are paid in credit points from the university. Project fees goes directly into the financing of consultant services on the specific project, and eventual follow-up work by students in holidays.

## arkitekthjelpen [**samvirke**]

arkitekthjelpen[**studio**]

WHAT

Free consulting service

HELPS

Everyone with a project or an idea

HOW

Anyone can bring their project for a noncommittal conversation, and we will give our advice and discuss different suggestions.

This service has been ran since august last year, and we have received a lot of positive feedback. Besides being an offer for «the man on the street», this is a great opportunity for the students to dialogue with real clients.

arkitekthjelpen[**rådgivning**]

arkitekthjelpen[**formidling**]

arkitekthjelpen[**samvirke**]

arkitekthjelpen[**studio**]

WHAT

To promote architecture

HELPS

The public, the industry and the students

arkitekthjelpen[**rådgivning**]

HOW

Arrange workshops and exhibitions for schools and the public

Publish our own projects on our website

Invite architects to write articles about architecture on our website

arkitekthjelpen[**formidling**]

Project database where we establish contact between people and architects by publishing accessible projects on our website

arkitekthjelpen[**samvirke**]

arkitekthjelpen [**studio**]

WHAT

Co-operative where arkitekthjelpen[studio] and students can realise and complete projects

HELPS

Arkitekthjelpen[studio] and students (2 years before and after the graduation)

arkitekthjelpen [**rådgivning**]

HOW

Students have the chance to join the co-operative by contributing with a deposit. Then they will get the opportunity to get help to realise project.

arkitekthjelpen [**formidling**]

Arkitekthjelpen[samvirke] contributes with experience from other projects, professional help and guiding from our supervisor team, consisting of architects and engineers. We also provide insurance and the right to accept responsibility.
